

2022 Invitation to Present

Don't miss your opportunity to be part of this prestigious event. Share your latest advancement, technical success or case study with the industry. **Abstracts deadline has been extended to November 1, 2021.**

SUGGESTED TOPICS BY TRACK

Coating & Graphic Arts

- Packaging, Label, and Digital Coating Applications
- Novel Coating and Process Technologies
- Advances in Printing and Graphic Arts
- Other Coating and Finishing Topics

[Click here](#) for a track description and specific topics

Papermaking

- Innovations in the Papermaking Process
- Innovations in the Papermaking Systems
- Project Management
- Technical Support

[Click here](#) for a track description and specific topics

Papermaking Additives

- Process and Functional Additives
- Novel Additives
- Methods and Applications

[Click here](#) for a track description and specific topics

Papermaking Fundamentals

- Fiber suspension dynamics in the approach flow, headbox, forming and press sections
- Product performance and the relationship to physical properties of paper and board
- New technologies for improving the circularity of fibre-based packaging
- Advances in 3D fibre forming: wet forming, drying forming and pressing of paperboard
- Novel technologies in forming and pressing
- Modelling to simulate water removal, water balance, and rewetting
- Energy saving technologies for improving heat efficiency

[Click here](#) for a track description and specific topics

PIMA

- Workforce Development
- Information Technology (IT)

[Click here](#) for a track description and specific topics

SUGGESTED TOPICS BY TRACK cont.

Process Control

- Cross-Directional (CD) Measurement and Control
- Applications of Artificial Intelligence (AI) for Process Control
- Field Devices
- Bridging the Gap Between QCS and Quality Lab

[Click here](#) for a track description and specific topics

Reliability & Maintenance

- Precision Maintenance
- Application Review
- Implementation Plan and Team
- Solutions for Catastrophic Failure
- Cost Reduction

[Click here](#) for a track description and specific topics

RPTA - Recycled Paperboard Technical Association Production – Technical Seminar

- Contaminant Removal
- Paper Machine Drying
- Refining

[Click here](#) for a track description and specific topics

Tissue

- Sustainability
- Quality Improvement
- Tissue Production and Converting Operation
- Data Management
- New Technologies

[Click here](#) for a track description and specific topics

SUBMITTAL INFORMATION

Abstracts Due: **November 1, 2021**

Abstracts submittal:

[Click here](#) to submit your abstract to TAPPI's Speaker Management System

Event Website: <http://tappicon.org/>

Event Dates: **May 1-4, 2022**

Event Location: **Charlotte, NC, USA**
